House Appropriations Request FY 2010

Project Name: The Database of North Carolina's Agriculture Industry for Rapid Response (Multi-Hazard Threat Database)

Recipient: North Carolina Department of Agriculture and Consumer Services

Recipient Address: 2 W. Edenton Street

Recipient City: Raleigh

Recipient State: North Carolina

Recipient Zip: 27601

Amount of Request: \$300,000

Explanation of the request (must include purpose and why it is a valuable use of taxpayer funds):

The Multi-Hazard Threat Database (MHTD) is a decision support tool for the food protection and emergency response community in North Carolina. The MHTD is a web-based system that allows state authorities to track livestock locations and livestock movements in North Carolina. The MHTD helps authorities to first locate the origin of livestock diseases that compromise the food supply and then contain the contaminated livestock. The MHTD also tracks food contamination incidents at the wholesale and retail level. The funding will be used to supply the MHTD with funding for essential personnel.

In order to offer more opportunity for public scrutiny, I have posted information on each project request submitted to the Appropriations Committee at the time the request was made.
